

GET THE FACTS:

IT'S WHAT YOU KNOW -

THE TRUTH ABOUT VAPING

Quick Fact!

- **Most Miami County kids make smart choices.**
- **Vaping isn't safe** - nicotine can change/rewire your brain
- **3.9% of 6th-12th graders** surveyed reported vaping within the last 30 days (KCTC Student Survey 2024)

It's not just mist -
it's what you know.

Be vape-free
like most
Miami County kids.

Think vapes are
harmless?
Think again.

THE RISKS OF VAPING

It's not what you think. **It's what you know.** Vaping can harm your **brain and body** long before you feel the effects.

1 in 4 Miami County teens say they've tried vaping - but most don't know vaping can **permanently damage lungs** before the age of 20.

**PLEASE!
NO SMOKE!**

Vaping now can lead to smoking later.

— THE LOCAL CONNECTION —
